Dear Parent/Carers,

We write to invite you to our STEAM Showcase Event, held on Thursday 5th October 6.00-8.30pm at Williamwood High School.

We are inviting all Primary 6 and 7 pupils from our Associated Cluster Primary Schools, alongside all S1 and S2 pupils from Williamwood.

The evening will be full of interactive and engaging hands on STEAM activities including:

- Glasgow Science Centre Future Fuels Workshop
- The Animal Man
- Really Small Science: Nano Dirt Workshop
- Nintendo E-sports
- Robotics
- Prosthetics 'Build a Limb'
- VR Headset Experience
- Chemistry of a Cupcake
- Fun Maths games
- Heart dissections
- Science Club Experiments
- Microscopes
- Van de graff generator

With many more activities to become involved with.

Wearable Art Fashion Show

Our Art & Design Department have issued the following challenge: to design a piece of wearable art (garment, headpiece, jewellery piece, body adornment, and helmet). This should be constructed from recycled materials e.g. paper plates, newspapers, bin bags, plastic bottles, paper bags, pencils etc. This should be brought by the pupils on the evening of the STEAM Showcase to form part of the Wearable Art Fashion Show.

Fashion pupils from our Food & Textiles Technology Department will also present their work.

We ask that you fill out this very short google form to allow us to determine how many we expect on the evening. This for can be found [here](#).

We look forward seeing you there.
