What help is available?

- Look at ways to maximise your income to ensure you're receiving everything you're entitled to
- Your income and expenditure can be reviewed to help determine if your mortgage repayments are affordable and realistic for you and to help to budget for this
- If you are in arrears, they can help you to negotiate a repayment arrangement with your lender
- Advice can be provided of what options are available to help you address your mortgage arrears along with any other debt you may have
- Assistance if your lender is threatening to take action against you (or already has started action)
- Advice on what government support schemes are available and help you apply for these.
