

Netherlee Primary School and Nursery Class

Parent and Child Standards and Quality Report 2023-24

Leadership and Improvement

- Teachers have been working with children who may find reading a little challenging.
- Teachers and children looked at the learning environment of their classes and worked together to make them more comfortable places to learn
- We did a lot more Talking and Listening activities this year to help these skills.
- There was a focus on challenging children with Maths problems which everyone including those who need a wee help and those who are great all learned new skills.

Quality of Education

- Our Lighthouse has been a great success and many more children have benefited from extra help with Nurture and Social skills this year.
- The nursery children have been working with Mr Watson on new musical experiences
- All our P7 pupils were in Leadership groups of their own choice for the year. Working really hard to improve their own communication skills.

Quality of Care

- We had an excellent Diversity month with the special Cultural evening a success for parents and pupils
- We were re-accredited with our Sports Scotland award in January of this school year - Go Netherlee!
- Parents have joined us to share their expertise and knowledge on a variety of different areas this year.
- We continue to work with our language champions in both the nursery and school - Fantastique!!

Best Possible Outcomes

We have been working and learning more in our local community and have enjoyed the support of many local businesses.

- The Nursery have been using Froebelian principles and sharing them with parents for joint working.
- We have been using our Forest Skills for outdoor learning and love using our new outdoor spaces and resources.
