

The Faculty of Engineering, in partnership with BAM Nuttall, the Weir Group and West Fraser, is delighted to provide an outreach programme for S3 Girls

Engineering the Future for Girls

5th – 8th June 2023

Engineering the Future for Girls is designed to engage girls in a range of engineering challenges that will inspire them to become the next generation of engineers.

This four-day, non-residential programme will run on the University of Strathclyde campus from the 5th – 8th June 2023. There are 100 places available in total, all of which are fully-funded by the industry partners. As a non-residential programme, participants will need to be able to travel to and from the University of Strathclyde campus (Glasgow City Centre) on all four days. A contribution towards travel costs will be provided and lunch will also be provided each day.

Scan the **QR code** or visit for information on the programme, including details on the application process and deadline for applications.
