Session 2018/19

Planning for School Improvement in St Clare's

In line with our school aims in St Clare's we...

“Recognise learning is not just for today but forever!

Work as a team and build a community, where everyone can shine.

Always try to improve and reach for the stars.”

Our agreed aims support everyone in the community of St Clare's to always be their best self and help our school continue to improve. Improvement is in line with the National Improvement priorities. Our context influences the needs of our community and in turn the priorities we have agreed. Annually we create a School Improvement Plan which provides a framework that we use help drive improvement forward. The plan is informed by the process of self-evaluation. Staff, learners, parents and partners are involved in different ways throughout the year to reflect on the progress that we make. We then use this evidence to inform planning for the next academic year. St Clare's has cultivated a climate where learners can use their voice to influence their learning and community.

A detailed copy of the plan can be found on our

<https://blogs.glowscotland.org.uk/er/stclares/standards-and-qualities-2018-19/>

Our priorities for 2018 -2019 are:

Leadership and Management

Develop a coherent approach to self –evaluation across our school community.

- Establish a Junior Leadership Team and use How Good is OUR School to empower staff and learners in self-evaluation

In keeping with the aims of our school we will foster a collaborative climate, where everyone can demonstrate learning is not just for today but forever.

- Create regular opportunities for children to lead and reflect on their learning
- Staff support and facilitate P6 and P7 to lead school committees
- Create an overview of staff expertise and provide opportunities for staff to share their expertise e.g. Playful Pedagogy , Science Champion, Digital Technologies, Moderation Facilitator, Maths Champion

Learning Provision

Raise attainment and deliver excellent teaching and learning experiences focusing on Mathematics & Numeracy, Comprehension and RERC

- Produce a whole school approach to teaching mental maths strategies
- Become familiar with and implement the ERC Numeracy and Mathematics Framework
- Celebrate National Maths Week
- Improve how we teach comprehension across the school
- Become familiar with and implement the ERC Literacy and English Language Framework
- Train a teacher In Reading Recovery and target specific learners
- Actively participate in different events to continue to celebrate 100 years of Catholic Education in Scotland

Successes and Achievements

Promote the wellbeing of all children

- Build on our Bronze Rite of Commitment and work towards becoming Silver Aware Rights Respecting School

Through digital technology, learners will develop their skills for learning, life and work

- Learners create their own web based digital profile to capture their learning journey

Our Vision

Everyone will be encouraged and challenged to always be their best self.

Everyone in St. Clare's will feel happy, nurtured and safe.

Together we will promote a love of learning, in an innovative environment, creating memories that will last a lifetime.

Our Values

Recognise learning is not just for today but forever.

Always try to improve & reach for the stars.

Aims

Listen, accept and embrace differences.

Work as a team and build a community, where everyone can shine!
