

Skills Poster Guide :

Please do not change the headings. Change any red text to the text that you would like to appear relating to your subject. You can refer to the Art and Design and P.E posters that have already been completed as a guide if you wish.

This is a working document, please do not change any subject other than your own.

Please keep the font sizes the same where possible:

Body of text should be font size 8

Font: Ariel Body

As this is a PowerPoint you must save your progress each time you close it, please save it in the same place.

Many thanks for your expertise and time, please do not hesitate to come and speak to Heather Clelland (P.T Skills) or Eilidh Briggs (P.T DYW) if you have any issues.

Completion date Wed 23rd Feb.

WHAT SKILLS? ART AND DESIGN

DIGITAL LITERACY

Our Learners are skilled in using digital technologies to demonstrate their creativity and further their ideas.

Electronic portfolios for collage or art school application.

Digital recording techniques, photography, digital sketchbooks, online tutorials with teachers.

INTER DISCIPLINARY CONNECTIONS

Learners understand the connections between the skills that they learn in A&D and how that can be applied across disciplines such as mathematics, science and the written word.

PARTNERSHIPS

We have a strong Alumni of former pupils who have recorded their Higher education experiences, their employment and their creative pathways. They return to inspire our younger learners. Glasgow School of Art, University of the West of Scotland, Automotive and Transport Design, Coventry.

LITERACY

Learners study the work of designers and artist, they learn how to describe through conversation, the written word, sketchbook entries, and presentations. Learners produce I see, I think because statements about their own work and the work of others.

They produce artists statements

NUMERACY

Measuring, estimating, scale, volume, fractions, mixing, model making, ratios, shapes and forms, three dimensions, perspective, proportion

SELF ASSESSMENT SKILLS

We help our learners to recognize the abundance of skills that they have and can offer to employers, through self and peer assessment events. We help the students to recognize their creative achievements.

SKILLS FOR WORK

Through our skills based approach we nurture learners who can:

Communicate ideas effectively, collaborate, work in a team, meet deadlines, problem solve solutions creatively, adapt to new situations, take risks, demonstrate passion and commitment

SKILLS FOR LIFE

Self awareness, decision making, confidence, self worth, creative thinking, perseverance, responsibility, coping with stress/emotions, resilience, ability to fail and try again, individuality

CREATIVITY SKILLS

We pride ourselves on putting creativity at the center of our learner experiences. We have a skill set for creative life, learning and work that is embedded in the curriculum

CAREERS EDUCATION STANDARD

Planning learning activities that offer progressive skills development.
