

ViewPOINT

Viewpoint is a communication tool to help children and young people share their views, wishes and feelings. Practitioners working with children and young people have a key role in ensuring that they are supported and encouraged to use Viewpoint and in following up responses to inform ongoing individual work and planning.

Different styles are available

- With graphics
- Without graphics

Questionnaires can be accessed Online using a laptop, tablet or phone

Viewing responses

Once a questionnaire has been completed, the responses are displayed on the screen. A practitioner can also login with the young person's details and select report

To enable a young person to login use the internet browser on the device

Go to www.vptol.co.uk

The conversation with the young person

Following the completion of a questionnaire it is important for the practitioner to talk with the young person about their responses: to check that they are 'safe and settled', to identify what is working well and what issues need to be addressed in ongoing work and plans..

Further information about Viewpoint including answers to **Frequently Asked Questions** is available on the Viewpoint Learning and Development Hub www.vpthub.com
