

RESOURCES

Further community resilience resources

Scottish Water and **Go Safe Scotland** have developed teaching and learning materials linked to CfE, providing scope for cross-curricular and interdisciplinary learning around community resilience themes. Go to: <http://bit.ly/1gpAJaG> and <http://bit.ly/GoSafeScot>

Institution of Civil Engineers (ICE);

Bridges to schools programme: <http://bit.ly/1hOr0vw>

The British Red Cross - Lesson plans and teaching resources: <http://bit.ly/HDXk6y>

The RNLI - Lesson plans and teaching resources: <http://bit.ly/1jUmWKj>

Working together in partnership

We work in close collaboration with the Scottish Government and Scottish Environment Protection Agency (SEPA). We are constantly seeking opportunities to increase and branch out our resilience education network across Scotland. If you think you have something to offer to Education Scotland, please get in touch.

Community resilience

Resource guide

Resilient communities are better prepared for unexpected events and can swing into action when disasters strike. Through its community resilience programme and resources, [Education Scotland](#) is helping learners develop the skills, capabilities and motivation to become resilient citizens who actively support their communities in times of crises.

Ready for emergencies website

Our [Ready for Emergencies](#) site will enable learners to better prepare for emergencies. It contains **free downloadable materials linked to the experiences and outcomes of CfE**, whilst providing regular flood warning updates and links to other resilience education agencies.
