Contemporary
Art & Craft

MAC's 2012-13 exhibition has been organised by FCA&C, and curated by artist Jonathan Baxter.

The exhibition explores **sustainable education** through a **variety of artforms**, including painting, sculpture, animation and ceramics. Rooted in Fife and connected to the wider world, the Kingdom of If has much to offer children and adults alike, and links to the **Eco-Schools' programme & Curriculum for Excellence** through an accompanying **education pack**.
