

## Fife

### Quarterly update 2: Feb 2014

#### Launch of Into Film

FILMCLUB and First Light officially merged to become Into Film in early February. The wider film education programme for 5-19 year olds includes learning resources, filmmaking, CPD and training, film clubs, film festivals and other activities.

#### Involvement in the programme

Since August 2013 over 170 schools and organisations have joined the programme, including ten in Fife:

- Auchmuty High School
- Beath High School
- Dunfermline High School
- Freuchie Primary School
- Hill of Beath Primary School
- Kirkcaldy West Primary School
- Kirkland High School
- St Agatha's R.C. Primary School
- Sinclairtown Primary School

#### Filmmaking support

St Agatha's R.C. Primary School will be supported by a local filmmaker as part of cluster in Fife. Two more Fife schools are expected to join this cluster. Through this programme a filmmaker will provide CPD to teachers as well as running filmmaking sessions in the school.

There are also resources available to support filmmaking available online at <http://www.intofilm.org/schools-resources>.

#### Resources

Into Film is producing a range of resources across all curriculum levels and areas that can be used in the classroom or in film clubs. These are available at <http://www.intofilm.org/schools-resources> and [www.filmclub.org/resources](http://www.filmclub.org/resources).

After Easter we will publish resources on the Commonwealth Games and the Referendum as well as a series of curated film topics focused on Scotland.

If you missed the Roald Dahl resource that we launched at the Scottish Learning Festival you can access this at <http://www.filmclub.org/assets/pdf/Roald-Dahl-Scotland.pdf>

#### CPD and training

We have undertaken an audit of film CPD and training in Scotland and are currently developing some pilot models.

#### Joining Into Film

Teachers and youth leaders can join Into Film by registering online at [www.filmclub.org/register](http://www.filmclub.org/register) and watching a 15 minute induction. Through Into Film they can access DVDs, learning resources, CPD and training, dedicated support and more.
