

## “Electricity” – Traffic Lights

What is the difference between a cell and a battery?

What is the electrical symbol for a cell?

What is the electrical symbol for a bulb?

What is the electrical symbol for a buzzer?

What is the electrical symbol for a switch?

What is the electrical symbol for an ameter?

What is the electrical symbol for a voltmeter?

What is the electrical symbol for a wire?

What is the electrical symbol for a motor?

What is the difference between a series and a parallel circuit?

When does a switch let electricity through?

How does electricity travel through a wire?

What is current?

What is the symbol for current?

What unit is current measured in?

What is voltage?

What is the symbol for voltage?

What unit is voltage measure in?

How does current change in different parts of a series circuit?

How does current change in different parts of a parallel circuit?

How does voltage change in different parts of a series circuit?

How does voltage change in different parts of a parallel circuit?

What is resistance?
