

## Quick Computer Adaptations for Easier Access

- Hold down the windows key and press 'u' to open the ease of access settings
- Blue writing is for links
- Go to settings to adapt curser, brightness, size of font, magnifier and other apps
- You can add colour filters and change the contrast
- Narrator speaks as curser hovers
- On screen keyboard has a predictor

**Filter keys** – if children hold down the key too long/are too heavy handed so it creates more than one input of the letter – turning on filter keys will limit it to one

**Toggle keys** – lets you know when you have left the capital letter key on

**Sticky keys** – if children press more than one key at a time it will register just one
