

# Our School Improvement Plan

Our Goals for 2025-26

Some of us will become  
**DIGITAL LEADERS**

Create a **DIGITAL CHARTER**

Our adults in school are working on:

- Learning more about using iPads to support learning, assessment and feedback
- Using new planning for Maths to make sure we work with the right pace and challenge
- Learning from each other (Peer Moderation)
- Developing new approaches to assessment

iPads will be used in new  
ways to help us with our  
learning

Help each other improve our  
learning

Maybe you  
could try...

**"We all have the right to learn and  
to be heard"**
