

August 2025

Dear Parent or Carer

As part of the national Health and Wellbeing curriculum children are taught about relationships, sexual health and parenthood at an age and stage appropriate way. This happens throughout the year, as discussions arise and as planned topics.

The information linked below explains the content of these topics as the children grow and develop in our school.

P1 [Early Level - RSHP](#)

P2-4 [First Level - RSHP](#)

P5-P7 [Second Level - RSHP](#)

More detailed information can be found within this [presentation link](#).

We are happy to answer any of your queries. **However, if you do not wish your child to take part in these lessons please complete this [FORM](#)**

This will be reviewed annually and parents/carers can change their decision at any time by making contact with the school office. Our withheld permission data will be updated as a result.

Yours sincerely

Miss Lindsey Manton

Headteacher
