

Dyslexia-friendly formats

Thinking about the presentation and layout of information will help make it more accessible. The following suggestions may be helpful:

- Use pastel shades of paper (cream is a good alternative to white).
- Matt paper reduces 'glare'.
- Avoid black text on a white background.
- Use text font size 12 or above.
- Use fonts which are clear, rounded and have a space between letters, such as:

Century Gothic

Comic Sans

Arial

Verdana

Tahoma

There are also fonts that are similar to a handwritten style, or ones that might be more 'dyslexia friendly' such as:

DK Cool Crayon

Dyslexie font

(You can find free or low cost fonts like these in Microsoft Word or online)
