

Pupil Improvement Plan poster

Priority 1	Priority 2	Priority 3
		
My teacher will help me improve my reading skills in school and at home. I will get access to fiction and non-fiction texts and be challenged to be a better reader. I will have opportunities to read for enjoyment in different ways.	My teacher will teach inspiring digital technology lessons which help me develop my skills and experiences using different devices. At P6 and P7 my teacher will help me develop my digital technology skills using the iPads. They will give me opportunities to use these in my learning in every area of the curriculum.	My teacher will help me to understand the skills I am developing across my learning. I will be supported to learn these skills and plan ways to improve them. I will be able to talk about how my skills link to my learning, life and work.
