

Scotland's Play Vision Statement and Action Plan 2025 - 2030

The Illustrated Version

The Scottish Government want to make play better

Play

is my right!

keeps me healthy

helps me feel safe

helps me with my emotions

helps me learn

is adventurous and fun!

helps me make friends

is for old and young

is good for everyone

What we want play to look like

I can play at home

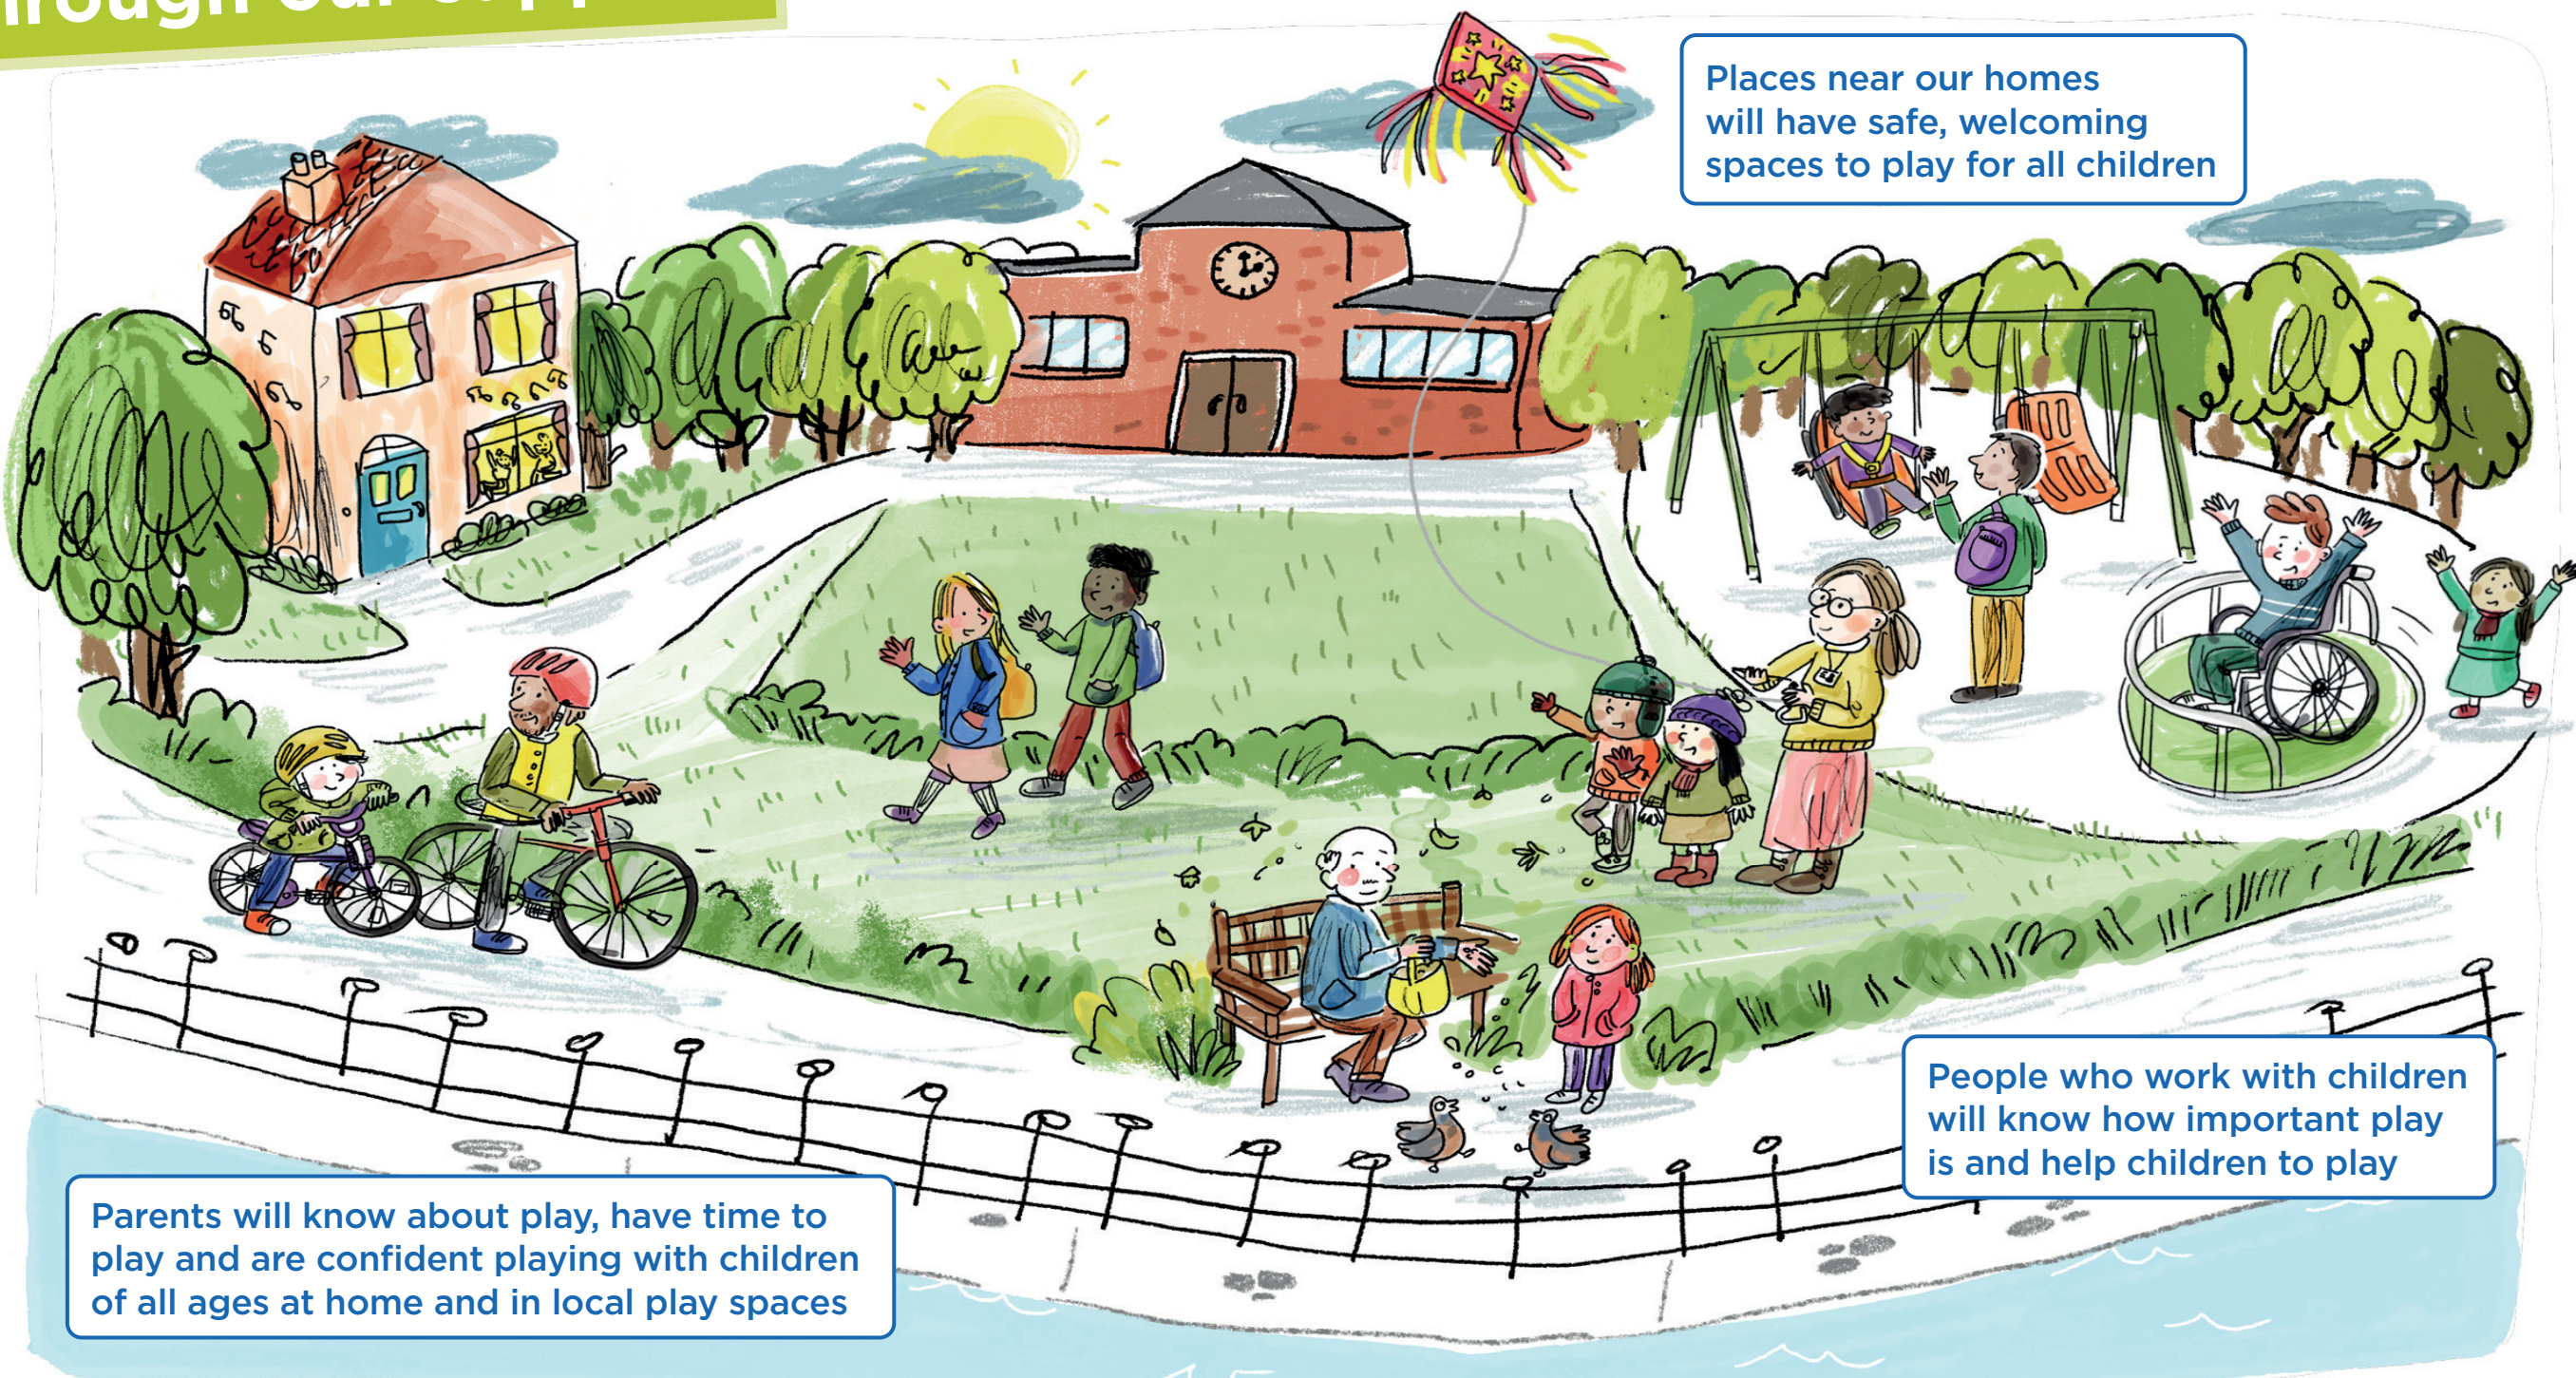

I can play at school and nursery

I can play in my neighbourhood

Through our support

Places near our homes
will have safe, welcoming
spaces to play for all children

Parents will know about play, have time to
play and are confident playing with children
of all ages at home and in local play spaces

People who work with children
will know how important play
is and help children to play
