

Skills for Understanding, Analysing and Evaluating Reflective Questions

Following your engagement in the Professional Learning session, now consider:

Concepts

What were the key takeaway messages for me?

Connections

How do these relate to my current work in school?

Challenges

What challenges or issues does this raise for me?

Changes

How will I now put my professional learning into practice?

You may wish to use some of the following self-reflection or discussion prompts:

How do we support learners to make connections to a text through their understanding of author, purpose, and own background knowledge?

How do we support learners to make predictions before and as they read to help them better understand the text?

How do we support learners to visualise the text to help develop their understanding?

How do we support our learners to ask and answer different types of question appropriately?

How do we support our learners to summarise, discuss and evaluate texts they have engaged with?

What kinds of approaches and strategies do we use to help our learners develop their vocabulary and determine the meanings of words?
