

GROUP DISCUSSION

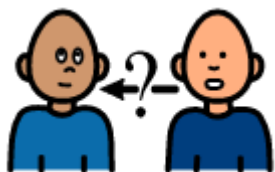

We are **CONSIDERATE** of others when working in a group, take turns and encourage them to participate.

We communicate in a **CONFIDENT** way by using our voice and body language to make positive contributions.

We **CONNECT** with others in a positive way using words and body language appropriately.

We are **CURIOUS** about what others have to say and what we can learn from them.

We **COLLABORATE** in a group by showing respect for others' points of view and building on their ideas.
