

# Learning at home

## Picture Walk

Choose a book that you and your child are not familiar with.

Look through the book turning the pages together and talk about what you see

Use questions like:

"What has happened here"?

"I wonder what they are thinking"?

Then read the story and find out if you were right

## What you will need

Any story or picture book

## How this supports development

- Inspires and encourages imagination and creativity
- Boosts comprehension and language skills
- Engages your child in a conversation, knowing when to listen and answer

## Supporting Play

This activity can be done with any story book, however it is best with a new story to spark their curiosity
