

Weekly update p1/2 week ending 24th Nov

We have been learning to add 10s to 2-digit numbers using Deins Materials. We played a game where we had to roll the dice to get our 2-digit numbers and then again to see how many 10s we needed to add. The game also made us work on writing our numbers correctly, counting in 10s and splitting numbers into tens and ones.

Some of us are still learning our numbers to 10. This week we focussed on 9 and being able to order numbers on a number line.

Next week

We will be learning our Nativity songs along with our Rookie Rockstars songs. Look out for song words coming home.
