

P6/7

24.11.23

### Numeracy

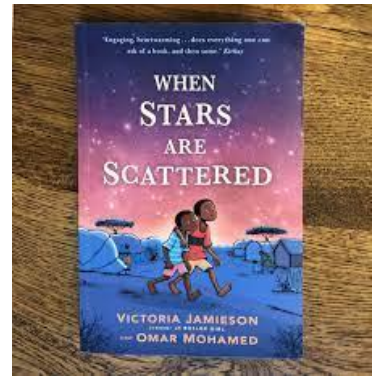

We have continued to practise our understanding of multiples, and this week we have looked at Fractions. Some of us have been learning to add fractions and some of us have been finding equivalent fractions and simplifying fractions through problems.

### Literacy

We are writing a thank you letter to a very generous man in the community who has donated money to the school. First of all, we made a spider diagram to brainstorm what to include in the letter and we looked at an example to see the correct layout of a formal letter. We will deliver our letters next week!

### Art

Inspired by our class novel, *When Stars are Scattered*, we have been creating a work of art based on the refugee camp where the book is set. We were to draw a big eye and include sketches of the reflection of what a refugee might see in their eye. This was to help us to imagine their world from their point of view.

### Rights Respecting Schools

To get our Bronze award, we need to make more people aware of what we are working on at school. We were making posters and planning a letter to send out in the community to inform local people more about this. Some of us will be presenting an assembly on 11<sup>th</sup> December (Human Rights Day) in school to raise awareness with younger pupils.

### Road Safety Week

The JRSOs went on a whole school walk with the other classes up to the park and back. We were informing the classes about the Green Cross Code, and helping them to cross the roads carefully and safely.

### Home Learning

- Fractions worksheet will be sent home on Monday to be returned on Friday.
