

1<sup>st</sup> December 2023

### Music

Rookie Rockstars came to our school this week. Andy and Dave taught us five different songs. The themes of the songs are forgiveness, friendship, anti-bullying and persistence. We hope to be designing a t-shirt or poster too, and the winner will get a prize at the concert. The teachers and pupils also had to take part in some funny challenges. We have absolutely loved learning the songs and we can't wait to perform next week!

### Internet Safety

P6s enjoyed learning about Internet Safety on Thursday with PC Emma Fisher. We learned about protecting our identity in user names and to not show images of ourselves or our school uniform, address, or anything that displays our personal information.

### Numeracy

Fractions of amounts word problems.

### Art

We really enjoyed being creative with a range of materials to make our Christmas Fayre decorations. First, we drew our idea and thought of the different ways to attach our chosen materials together such as dried orange slices, acorns, conkers and leaves. Each decoration is unique and we hope to sell lots of them this Saturday.

We have also been using our collaboration and team work skills to design the different sets for our school nativity. We had to find a way to create large scale pictures and take on different roles in our groups, including drawing the different elements of each scene and painting them.

### Home Learning

Practise songs for Nativity and Rookie Rockstars. Homework will be issued on Monday.
