

Protect your future

Teenage vaccinations 2025

Essential immunisations for high school pupils in years 1 to 6 across Fife.

What vaccines are offered?

HPV vaccine (from year 1)

This vaccine helps protect against cancers caused by human papillomavirus (HPV). It's important for both girls and boys.

DTP and MenACWY (from year 3)

These vaccines protect against tetanus, diphtheria and polio, as well as meningitis strains A, C, W, and Y. They are quick and easy to administer and provide lifelong protection.

Open access clinics

You can drop into any of our 36 teenage open access clinics across Fife. To find out more, scan the QR code or visit nhsfife.org/openaccess

NHS Inform
