

KIRKCALDY HIGH SCHOOL
Community, Ambition, Respect

The KHS Ladder of Ambition!

10. I use my ambition to make a positive difference.

At the top of the ladder, ambition becomes leadership, using what you've climbed towards to lift the world around you.

9. I aim high and stay focused on my future.

Ambition is choosing a rung far above your head and steadily reaching for it with purpose.

8. I take responsibility and step up when needed.

Every ladder climb needs steady footing, leadership means owning your choices and placing each step with intention.

7. I support others to reach their goals too.

Ambitious people don't climb alone; they offer a hand to help others up the next rung.

6. I inspire others through my effort and attitude.

Your climb becomes a beacon, showing others what's possible through determination and positivity.

5. I push myself to be better than yesterday.

Each small step counts; ambition grows through steady, everyday progress.

4. I learn from mistakes and keep moving forward.

If a foot slips, you don't climb down, you regain balance and continue upwards with resilience.

3. I take action, even when it's difficult.

Climbing begins with the first step; leaders move forward even when the rung feels shaky.

2. I set goals that excite and challenge me.

Ambition is choosing a ladder worth climbing, one that leads somewhere meaningful.

1. I believe I can grow.

The first rung is belief: confidence that you can rise, step by step, towards your potential.
