

## Lawhead Primary School – A Guide to Park & Stride

Fife Council policy states parking near schools is strongly discouraged. Yet we know that roads closest to the school gates can get extremely busy during school drop-off and pick-up. We know that not everyone can walk all the way to school every day. But for those that need to drive some of the way, please consider *Park & Stride*.

We have created a virtual **Walking Zone** - an area around a school within which families are encouraged to park a little further away and walk, scoot or cycle the last 5-10 minutes to school. This makes for happier, healthier children, less congestion and stress for parents - and better air quality for everyone at the school gates.

Please park sensibly and safely, switching your engine off, respecting parking restrictions as necessary, not blocking driveways or parking on kerbs, and always leave space for an emergency vehicle to get past.
