

What babies need

I can explain how human life begins, what pregnancy is and how a baby is born.

I know, understand and can discuss some of a baby's basic needs such as feeding, changing, washing, cuddling and sleeping.

I can demonstrate some basic skills needed to look after a baby.

Getting ready for a baby

Imagine that you are planning for the arrival of a new baby.

Work together to make a list of all the items a baby might need and the things a family needs to do to prepare for their baby.

Breastfeeding is good for baby and mum

Breast milk is tailor-made for the baby and gives them all the nutrients they need.

Breast milk helps the baby to fight illness and infection.

Babies in the class!

What will our babies need
to be:

Healthy?

Happy?

Safe?

Baby crying sound:

What would be the best thing about being a mum or dad?

What would be the hardest thing about looking after a baby?

Who thinks they would like to be a parent one day?
