

Learning across the four contexts at MPS – Term 1

Opportunities for personal achievement

Assembly- Weekly opportunities to be rewarded with a certificate in assembly for being star of the week, a rights-respective pupil or following the school values. The Star of the Week will take Pompom (our class teddy) home for the weekend.

Wider achievements – On a Monday, pupils can share wider achievements with the class and at assembly.

Interdisciplinary Learning

Topic - Our topic this term is The Alien has Landed where we will learn about our local community, what type of houses are in Markinch and what community groups are available. We will also be learning about Space. We have planned this topic together and the children want to learn most by walking around Markinch and inviting some people in to talk to us.

Outdoor Learning – We will be walking around the community as part of the topic but we will also be taking part in activities which help to develop our listening and communication skills.

The Curriculum

'the totality of all that is planned for children and young people throughout their education'

Class Charter – We have created a Class Charter, showing our understanding of the UNCRC Rights of the Child. We will be linking lessons to different rights throughout the year.

School Values- We are continuing to focus on our new school values (Motivating our pupils to be ambitious, respectful and kind) and doing this in and around school.

Shared Start- We look forward to welcoming you into our class this term to show off our new classroom and share our current learning.

Seesaw- Regular learning will be shared to Seesaw for you to see what we get up to and the progress we are making.

Literacy - we will spend this term following Big Writing lessons which will improve our VCOP and sentence structure. We will continue to learn Letters and Sounds scheme to help with our spelling and reading.

Numeracy- we will look at revising number and extending this to learn about larger numbers and their place value. We will also cover shape.

HWB- in gym we will be using small equipment to play games and start gymnastics. We will need to use coordination, teamwork and listening skills. Through different books, we will be learning about our emotions and how to manage them in certain situations.

ICT – we will be learning how to log in to a laptop independently and accessing a variety of applications and websites to support our learning in class and at home.

Ethos and life of the school as a community
