

Severe Weather School Closures

Dear Parents

During winter there have been times when we have had to shut due to the severe weather. This is a rare occurrence but has happened in the past. For example during 2018 the 'Beast from the East' shut the school for 5 days. Although rare we do plan for them just in case.

If the school has to close the following channels will be used to convey this:

Online – Visit www.fife.gov.uk and click on 'News Centre' for up to date information.

Groupcall – A Groupcall message will be sent out as soon as the decision to close has been made. This decision will be made as early as possible in the morning.

Facebook – The school facebook page will display a message.

Radio – Kingdom FM, Forth One and Tay FM.

If the school closes then information about activities to be carried out will either be on the school website (P.4-7) or on Seesaw. Teachers will ensure pupils have any information they need to be able to carry this out.

We are also planning to be able to be able to 'meet' with pupils virtually as we did during school closures over the last 2 years. Links to any 'meets' would be sent either to pupils on Seesaw or through their GLOW email.

Hopefully none of this will need to be used but it is better to be prepared just in case.

Regards

S Humphries
