

## Pitteuchar East Primary - The rationale for our curriculum.

### Our bairns benefit from:

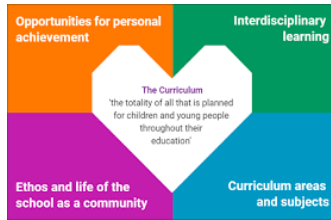

Nurturing approaches and strong relationships

Outdoor Learning

Work in Science, Technology, Engineering and Maths which has been recognised at a National level.

Learning through play

Universal progressive learning pathways which are planned for and implemented across the curriculum.

## *It's All About the Bairns.*

### Vision and Values

Nurture, Respect,  
Inclusion, Ambition,  
& Compassion 

### Bairns at Pitteuchar East:

Know what they are learning and why.

Can talk about their learning.

Are supported to progress and identify next steps.

Have opportunities to lead learning and influence decisions made in school.

Have the chance to contribute to the wider community.

### Our Community:

Our school is well supported by parents and the wider community.

We have strong links with groups in our local community. We visit local care homes, and support the Community Council to improve the local environment.

We make use of the open spaces and woodland in our area.

### Our Bairns' futures:

We are developing skills for learning, life and work in our curriculum.

Targeted senior pupils benefit from the First Chances programme to raise aspirations for Higher Education.

We work with local and National organisations to improve outcomes for all our bairns.
