Thank you to those who completed the recent online survey. Feedback was received from less than half of our families (35), representing 50 young people from nursery to primary 7. The following gives an overview of responses. I have read and noted any themes identified from the feedback and this will be used to further improve our work in school and nursery.

2. Clear communication between school and home is vital. This was identified as an immediate area of improvement in September 2021. How would you rate communication at present?

[More Details](#)

Rating	Count
Could be better	6
Good	18
Strong	11

In September 2021 the majority (65%) of families said communication could be better. By March 2022 most (83%) said communication was good or strong.

3. Do the weekly updates support better communication?

Most families said the new school vision and values met their ambitions for their child. We will continue to develop this.

What is the school/nursery's **current** reputation in the community? The following shows the key words that featured in responses. The larger the word the more it appeared.

happy the school    Good but room    children in the home  
 good standard children teachers    staff at school    school has work    local schools  
 p1 other schools    Tayport    **good**    school    youngest child  
 school dress  
 positive about school PS is good    Good teachers    good reputation  
 team for the children    parent teacher

The following words featured in responses. The larger the word the more it appeared. Overall this was positive with room for improvement.

11. Do Tayport learners have the digital skills, knowledge and competence, for their stage of school, to embrace the digital world of today?

[More Details](#)

● Yes	19
● No	1
● Unsure	15

With just under half of families being unsure if Tayport learners have the appropriate digital skills we will review how we share our digital curriculum with you.

12. We plan to set up an informal, termly, parent/carer meeting in school hopefully in person, and with a cuppa, during the school day. This is not a parent council meeting. The purpose of this get together is to listen to families about what is going on for our children, share ideas and get to know you better. The meeting will probably be on a morning just after 9, for half an hour or so. Do you feel this would be useful?

[More Details](#)

● Yes	28
● No	7

We are delighted that most families thought an informal termly headteacher meeting would be useful. More information to follow!

15. Sharing learning with parents/carers is crucial to getting it right for all learners. We are keen to begin to plan a series of virtual information sessions. Please select themes that would be of interest to you:

This feedback will guide our family learning programme for 2022-23 and also links for our website.

Finally, the survey asked about the preferred format for parent meetings going forward. The majority of respondents (51%) expressed no preference to the type of parent meeting offered. Less than half (40%) said their preference would be a face-to-face meeting and few (6%) said they would prefer a phone call. Based on this feedback we will explore the costing around offering virtual face to face meetings in September 2022(using the parent night booking system). This has been used successfully in a number of Fife schools this session with positive feedback. This will also future proof our parent meeting offer should Covid-19 mitigations be in place. We will feedback to you before the summer if we are going to try this approach next session.

I have read and noted all general feedback on our school and nursery. I also appreciate the support of those parents/carers who are keen to get involved in our virtual job fair in May.

Thank you for taking the time to read and get involved in this feedback. I would encourage any parents with questions or unaddressed concerns to contact me directly: [tayportps.headteacher@fife.gov.uk](mailto:tayportps.headteacher@fife.gov.uk)
