Torryburn Nursery

Growing and Learning Together!

At Torryburn Nursery:

- * We aim to offer equal opportunities to everyone whilst respecting and valuing their differences.
- * We know that equal opportunities for all is a right- It is not a favour that some people are fortunate to receive.
- * All staff will play their part in promoting equal opportunities. This means the promotion of equality and fairness and discouragement of discrimination and prejudice.
- * The ethos of the nursery depends on respect for every individual involved - all children, parents, staff, colleagues and visitors.

We want to support every child:

- To develop an independent approach to the nursery and their own learning.
- To be assertive.
- To be tolerant, understanding and respect the needs of others.
- To feel good about themselves as learners.
- To understand and accept that other people live, work, talk and dress differently.

It is important that we get to know each child as an individual so that we can provide the activities and resources to help them develop.

If we understand the child's background and life at home, and parents understand and support the work of the nursery we will have a partnership which will support each child.
