KINDNESS FUN PLAY

The outdoor environment is wonderful for young children to explore. Just being outdoors is often the only motivation some children need to explore the fresh air and discover what their bodies can do.

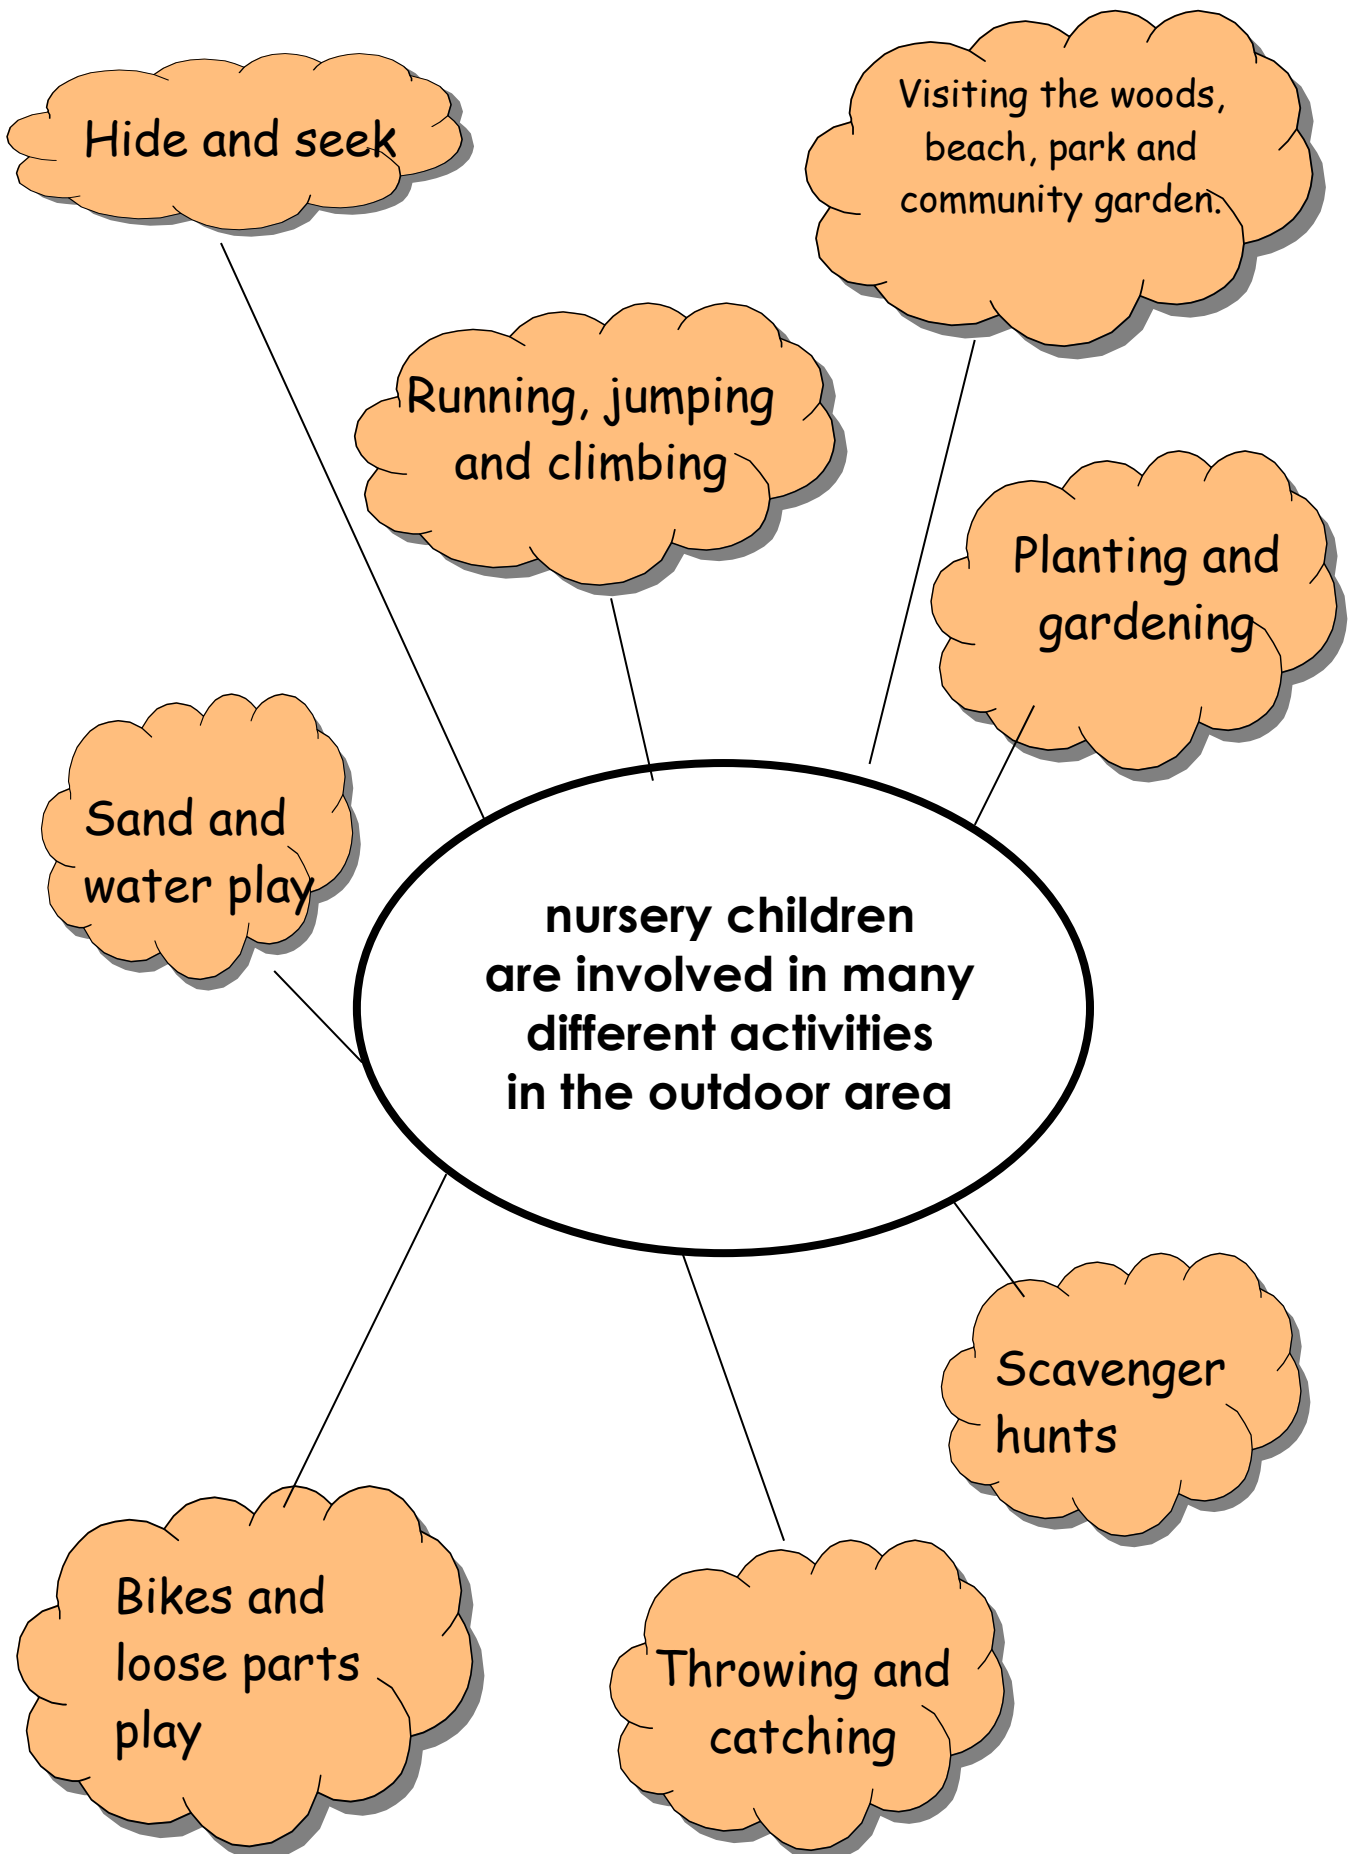

Some children do not have an outdoor space at home and therefore really benefit and enjoy the space and freedom an outdoor play area can offer.

We try to use the outdoor environment whatever the weather. It is as much fun to young children to jump in puddles on a wet day, to feel the snow and frost on a cold day and to feel the wind through their hair on a windy day as it is to be outside on a warm, sunny day - the best way to learn about the weather and seasons is to experience it for themselves.

Outdoor play teaches children an awareness of seasons, weather conditions and an appreciation of nature and the environment.

- Please ensure your child has appropriate clothing for outdoor play, layers are recommended as we are outside in all weather.
- Wellies and waterproofs are recommended for our weekly trip to the woods, although we have some spare in Nursery just in case.
