

Nursery Improvement Plan

Meeting Learners' Needs

To ensure almost all parents understand how young children learn through everyday experiences and feel confident and supported to extend learning at home.

Teaching, Learning and Assessment

To develop a coherent, high-quality approach to planning, tracking and assessment which ensures that almost all children make appropriate progress, with clear next steps identified and acted upon, leading to improved outcomes in learning, wellbeing and attainment.

Expected Impact

Almost all parents understand how children learn through play and everyday experiences

Almost all families feel supported and confident to contribute to their child's learning

Improved consistency between home and nursery results in better outcomes for children across wellbeing, literacy and numeracy

Expected Impact

Almost all children make clear and sustained progress across key areas of learning, with next steps accurately identified and consistently supported through high-quality planning and assessment.

Most children demonstrate increasing independence, confidence and engagement as a result of responsive, well-matched learning experiences both indoors and outdoors.

Children develop a strong understanding of rights, inclusion and sustainability, applying these in their play and interactions, as a result of an enriched, well-planned curriculum.

Key actions

- Build understanding of early learning
- Share practical home learning ideas
- Strengthen communication and relationships
- Support Parent confidence
- Promote Child Voice and Shred Learning

Key actions

- Professional Learning and dialogue (tracking, Think Equal, Up Up and Away)
