

Dear Parents,

I am writing to you because you have withheld permission for your child to bring their school iPad home. They will therefore be allocated an iPad on 11th December but it will solely for use in school, they will not bring it home. The iPad is a teaching and learning resource and it will be used in school, just as we use netbooks, laptops and calculators at present. Each child having their own device opens up wider opportunities for teachers to use digital technology to support and enhance learning and the iPads have a good range of teacher controls to ensure all children are on task.

If, at any point, you change your mind and you would like your child to bring the iPad home to support learning out of school, please reply to this email and we will arrange for you to complete the agreement.

If you have any general questions about the project, you can submit them here: [Transforming Learning at Balmerino and Wormit Primary Schools](#) I will then collate them into an FAQs sheet so that all families can benefit from each others' questions.

If you have any questions or concerns specific to your child or family, you can reply to this email and I will contact you directly.

Kind regards

Lucy Jess
