

What's happening this week in Antonine Primary?

We continue to work hard to improve attendance. If your child is feeling well, they should be at school. We want all our children to achieve their full potential so let's continue to work together to make sure that every school day counts. Last week whole school attendance was 87%. This continues to be lower than our usual average. Our whole school target attendance for this week is 90%.

Our Value focus for the month of May is:

Monday 18th May 2026

- New Fuel Zone Lunch menus: Week 2 Options.
