

## Antonine Primary

### Other Curricular Areas

Class: P7/6 Session: 2025/26

Ms Jamieson will teach **P7/6** every **Wednesday afternoon**.

Across the year she will cover the following curricular areas: Science, Art, Drama, Music, French and Spanish.

Please see below for overview of Learning and Teaching Blocks:

### Term 2 (October to December)

Science – Body Systems. P7/6 will find out about the eye, the ear and the respiratory system.

French – Phonics. We will be looking at letters, accents and sounds in French, in order to sound out new unfamiliar words.

Drama – Through the story of The Refugee Cat, we will explore drama techniques such as freeze-frames and thought tracking.

### Term 3 (January to March)

Science/Engineering – ‘Green Speed Challenge’ Pupils will create and race their own cars and explore how rockets work. They will test a chemical reaction and record the effects.

French – We will be learning how to name countries and nationalities in French. Through our art topic, we will also learn colours and how to describe art, places and people in French.

Art – P7 will explore art through a ‘French-speaking Artists’ project. We will respond to artists’ work, learn about their French-speaking countries and create paintings, prints and collages inspired by theirs.

### Term 4 (April to June)
