

Balornock Primary ~ P.2 a and P.2b Home Learning STEM

Week beginning Monday 25th May

Feel free to share your work on our school Twitter or Glow page

<p><u>Time/Calendar</u> Create a timeline of your day from the moment you get up through to when you go to bed! Record the activity you took part in and the time it took to complete! e.g.... 8am: Get up and have breakfast (30mins) 8:30am: Get washed and dressed (30mins)</p>	<p><u>Numeracy</u> Create repeated addition arrays in sets of 3s and sets of 4s.</p> <p style="text-align: center;">● ● ● ● ● ●</p> <p style="text-align: center;">$3 + 3 = 6$ $2 \text{ sets of } 3 = 6$ $2 \times 3 = 6$</p> <p>Try some of your own!</p>	<p><u>Maths</u> Create a simple coordinates grid for Percy to locate different places within the park!</p> 
<p><u>Spring</u> Spring has finally sprung! Create a beautiful springtime collage using materials of your choice!</p> 	<p><u>Science/Technology</u> In this week's story, Percy makes some delicious fruit cake! With an adult, have a go at some home baking of your own!! What ingredients will you need? What changes do you see in the ingredients you have used? What made these changes occur?</p> <p>The best part is eating what you have made! Yum yum!</p>	<p><u>Art and Design</u> Draw a self portrait! Miss McCarte, Mrs Kearns and Miss MacKinnon would love to see your cheery faces to brighten up their day!</p> 
<p><u>PE</u> Can you record a new dance routine to your favourite song? We can't wait to see your moves!</p> 	<p><u>Play</u> Take 20mins out of each busy day to enjoy doing some of your most favourite activities! This could be by creating something crafty, building a model from Lego, colouring or playing with your dolls. It's very important that you make some time each day to relax and have fun doing the things that you love.</p>	<p><u>Learning Together</u> Either on a sunny day outside or inside with lamps, choose a toy and position them in front of the light to form shadows. Put paper down where the shadow is and trace around the shadow. This can then be decorated or simply left as a sketch!</p>
