

Balornock Primary ~ Primary 2 Home Learning STEM  
Week beginning Monday 1<sup>st</sup> June

Hello boys and girls! Try as many activities as you can and share your work on our school Seesaw, Twitter or Glow page.

Health and Wellbeing

High Five! Draw around your hand on paper or card. In each of the fingers of your drawing, can you write the name of someone you could speak to if you had a worry - this could be family or someone at school. Please try to think of adults rather than other children

Money

What coins would you need to make these amounts

12p 17p 19p 22p 26p 35p 56p 78p 42p 99p

Write or draw them on paper and share your answers. There is more than one solution!

Art and Technologies:

Let's learn to draw like professional illustrators!

Go to: <http://www.robbiddulph.com/draw-with-rob>

Choose any picture and follow the steps to help you draw like a pro!

PE: Wacky Races

Use objects to mark out a start and finish line. Think of different ways you could move from the start to finish. Can you move on your hands and feet or can you move backwards? What is the quickest and slowest way of moving? Can you race against a partner using the different ways of moving? Which way of moving was easiest and which was hardest?

Explain and discuss why.

How did you feel if you did not win a race? Remember to challenge yourself to always try your hardest!

Numeracy

Are you a number whizz?

How many different ways can you think of to make this number?

Odds and Evens

This game is played like Rock, Paper, Scissors but you can only show one or two fingers.

Take turns to predict whether the total of fingers will be odd or even.

Say "One, two, three" and each show your finger or fingers.

If you predicted correctly you win a point. If you were wrong, your opponent gets the point.

Religious and Moral Studies

Choose a religion and find out the main beliefs. Do they have a religious festival? Can you draw a picture and write some facts?

Science

Our story study this week is about a storm. Do you know what a storm is? Watch the video linked in this activity about thunderstorms and write some new facts you have learned.

Problem Solving

Jane is standing in a queue.  
There are 5 people in front of her.  
There are 2 people behind her.

How many people are in the queue?
