

Balornock Primary ~ Primary 2 Home Learning STEM
Week beginning Monday 15th June

Hello boys and girls! Try as many activities as you can and share your work on our school Seesaw, Twitter or Glow page.

Problem Solving

HINT drawing pictures or using concrete materials will help you!

The chicken lays seven eggs The farmer takes two for his breakfast. How many eggs are left?

There are six cows in the shed. If each cow has four legs. How many legs is that altogether?

The farmer wants to move his sixteen cows to a new field. He can only fit four cows in his trailer at a time. How many trips does he have to make?

There are twenty cows in the field. The farmers takes fifteen of them in for milking. How many are left in the field?

Measurement- Language of length

Listen to the Polar Bear Length Song:

https://www.youtube.com/watch?v=anbimcl5nLw

- 1. Draw a caterpillar as long as a pen. Draw a longer one. Label them "longer than", "shorter than".
2. Draw a tree as tall as your foot. Draw a shorter one. Label them "taller than", "shorter than".
3. Draw a giraffe as tall as your hand. Draw a taller one and a shorter one. Label them "tall", "taller", "tallest".
4. Draw a snake as long as a teaspoon. Draw a longer one and a shorter one. Label them "long", "longer" and "longest".

Responsibilities around the home

At school, you often have a class job such as recycling monitor, messenger, line leader etc. This sense of responsibility should continue while you are learning from home!

At home, can you discuss with an adult which jobs you will be responsible for all week? E.g. loading/unloading washing machine, making beds, clearing dinner table every night.

Draw a picture of you doing your job or ask your parent/carer to take a photo of you being a fantastic helper!

Pattern

Can you complete the minibeast pattern below?

Healthy Hearts

To keep our hearts healthy we need to exercise. Complete one of the following activities each day for a week. For a challenge, do two each day!

- Brisk walk • Bicycle ride
• Dancing • Yoga
• Hula hooping • Running

Or anything else that gets you moving!

Are you a number whizz?

Activity box with a star containing the number 22, a question 'How many different ways can you think of to make this number?', and symbols for addition, subtraction, and equals. Includes a cartoon wizard and the website www.tpet.co.uk.

Our Senses

While out on your daily walks, can you try using all 5 of your senses to gain information about your surroundings? For taste, it could be whatever snacks or drinks you have with you.

Feedback to your teacher any interesting information you have discovered using different senses.

Taste Test

Blindfold another member of your family and have them taste 5 different foods. You could try crisps, lemon/lime, fruit, sweets, green leafy vegetables – anything you have in the fridge or cupboards that is safe to eat!

Can they identify if the foods are sweet, salty, sour or bitter? Can you now take a turn doing the Taste Test?

Gratitude scavenger hunt

- Find something that makes you happy
• Find something that will make someone smile
• Find one thing that you love to smell.
• Find one thing that you enjoy looking at.

Send a photograph or drawing of one or more of your choices? Have fun!
