

## NHS Immunisation and Screening Programmes

Below is a timetable of the programmes and information on data sharing.

The main NHS programmes in schools are:

Programme	What	Who	When	Consent
Immunisation	Flu Vaccination	All primary pupils	Oct-Dec	Packs issued Aug
	HPV	All S1 pupils	Jan/Feb 2021	Packes issued Nov
	HPV Catch up	All eligible S1-S6 pupils	Jan/Feb 2021	Packs issued Nov
	MMR	All S1 pupils with an incomplete course	Jan/Feb 2021	Packs issued Nov
	DTP & MENACWY	All S3 pupils	Feb/Mar 2021	Packes issued Jan 2021

In addition to the above scheduled programmes, the NHS will respond to any emergency or targeted immunisations as directed by the Scottish Government and Public Health eg MMR, Men B outbreaks.

Programme	What	Who	When	Consent
Screening	Height & Weight	All P1	Jan onwards	Health Questionnaire issued Dec
	Vision	All P7	August onwards	Health Questionnaire issued Aug
	Pre-school vision screening	All children in their pre-school year	Throughout the year	Questionnaires issued three weeks prior to date of visit

The school dentist visits annually to check P1 and P7. No treatment is given, but where treatment is required, it is drawn to the attention of parents/carers.

### Sharing Pupil/Parental Data

Consent forms will be issued to parents via establishments on behalf of the NHS and stored accordingly on return.

Where forms have not been returned, or where it appears that a consent form may have been completed incorrectly or is incomplete, it is necessary for NHS staff to be provided with the appropriate and relevant information. Therefore, the following information **can** and **should** now be shared with relevant NHS staff by means of **secure** email to immunisation teams or school nurses, or may be passed in hard copy or verbally but only at face to face meetings within Education premises:

- Class lists
- Names of pupils
- School attended
- Names and contact details of parents/carers.

As stated above, there is now a data sharing and processing agreement between Glasgow City Council and the NHS. There is no need for an additional privacy statement for this process as the privacy statement on the annual data check form addresses this already.
