

This **Get into Summer Fund** will support partners to deliver a summer of **free or subsidised activities** for children and young people across Glasgow. The lives of young people in the city have been anything but normal for the past 15 months and we want Glasgow to come alive with opportunities for our young people to re-connect this summer.

This is a flexible fund designed to meet local need and respond to what children and young people in your community want. The Get Into Summer Fund can provide up to **£2,000** of funding to support or enhance delivery between **Monday 28th June – Tuesday 31st August**.

Please see below the organisations delivering and areas across the City where “Get into Summer” activities are taking place.
