

# Ideas for Playground Development

February 2025

# Playground Plan

- We are going to be looking to develop over playground over a few years.
- This year, we are going to create a plan for our playground, select an area to develop and fundraise for this area and for future areas.
- The areas which are currently mud we are looking to put down colourful soft material.
- Please go through the PowerPoint and use a second device to record your classes suggestions for the different areas in the playground. Use your imagination and think about how the playground is used at the moment.
- A canopy has been suggested for the area beside the trim trail to cover the picnic beaches.
