

Supporting New Arrivals in Glasgow Schools

EAL
SERVICE
Glasgow

Bilingual Learners in Glasgow

There are more than 350 establishments in Glasgow that provide for the learning needs of a wide range of children and young people from birth to 18. Over 20% of the child population is bilingual this equates to around 19,000 children and young people in our schools.

The bilingual population of Glasgow is not a homogeneous group, there are:

- established bilingual communities
- new arrivals from other countries
- asylum seekers and refugees
- European Union migrants

Additional Language Acquisition

Research into the language development of bilingual children has shown a distinction between conversational (surface) fluency and academic fluency.

The diagram consists of a rectangular box with a black border. On the left side, the text is organized as follows: 'BICS' in large blue letters with a red outline and a drop shadow; below it, 'Basic Interpersonal Communication Skills' in bold black text; a bulleted list with three items: '- conversational, social, everyday language', '- fluency takes 1-3 years', and '- often includes a 'silent period''; then 'CALP' in large blue letters with a red outline and a drop shadow; below it, 'Cognitive Academic Language Proficiency' in bold black text; and a bulleted list with two items: '- school, textbook, academic language' and '- takes a minimum of five years to develop even an intermediate fluency; takes a whole lifetime to develop fully'. On the right side of the box is a hand-drawn blue outline of a t-shirt. The word 'BICS' is written in blue on the collar area, and 'CALP' is written in large blue letters on the main body of the t-shirt.

BICS

Basic Interpersonal Communication Skills

- conversational, social, everyday language
- fluency takes 1-3 years
- often includes a 'silent period'

CALP

Cognitive Academic Language Proficiency

- school, textbook, academic language
- takes a minimum of five years to develop even an intermediate fluency; takes a whole lifetime to develop fully

Advantages of Bilingualism

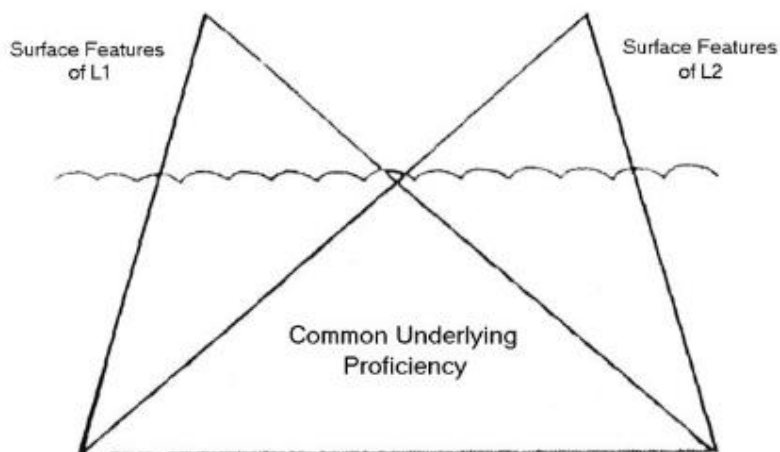

There are numerous advantages of bilingualism, these include:

- a greater capacity for lateral thinking and problem solving
- a greater facility for learning additional languages
- enhanced ability to perform certain cognitive tasks

Knowledge of one language supports development in another language. This is exhibited via Cummins' dual iceberg model:

The 'Dual Iceberg' Model of Bilingualism

(Jim Cummins, 1984)

In the child's mind, the languages are inter-connected. If a child understands an idea in one language, it helps them learn the word for that concept in the other language. Or if a child develops a skill in one language, such as predicting a story from pictures, the skill will transfer to the other language.

The Early Stages of Learning English: Research (adapted from NALDIC)

Silent Period: Many bilingual children who are at an early stage in their learning of English go through a 'silent period' when they first enter an unfamiliar setting. This can last for up to six months or longer. This is not a 'passive' stage. During this time, children will be watching, actively listening, and exploring their environment to understand new experiences and to develop new meanings. They will be trying to relate previous knowledge to new contexts. It is important that children should not feel pressurised to speak until they feel confident enough to do so. However, it is essential that adults continue to talk to the children, to pick up their non-verbal responses, to support the child's understanding of meaning, and to involve them in activities; these strategies will help children to internalise the language they hear and to develop a sense of the patterns, meanings and range of language functions in their new, unfamiliar environment.

Non-Verbal Gestures: Children may begin to use non-verbal gestures as a response to a question or to indicate a need. Understanding is in advance of spoken language.

Echo: Many children may begin to 'echo' single words and some short phrases used by adults and peers. All attempts at speech should be encouraged and praised.

Language Chunks: There will be a development of 'formulaic' language ('chunks' of social speech) e.g. "Mummy come soon." "My turn." Children may begin to join in with story refrains and repetitions and songs.

One Word Expressions: 'Chunking' will continue, but children will increasingly begin to use one word utterances (frequently nouns) which will perform a range of language functions indicated by tone of voice (e.g. questioning, responding, naming).

Simple Sentences: Children will begin to use extended phrases or simple sentences which contain surface developmental errors in the use of plurals, tenses, personal pronouns, function words and articles. Again the emphasis is on the communication of meaning.

Increasingly children will develop more control in their use of functional language. However surface errors in the use of tenses, word endings and plurals will continue for some time until children understand the use of different grammatical structures in the target language, which may be very different from the home language.

New Arrivals – Points to Consider

New arrivals are not a homogenous group and do not necessarily have a common set of educational needs. New arrivals may:

- Have varied school experiences i.e. none, interrupted, full schooling
- Be literate in one or more languages
- Be highly motivated, gifted and talented
- Be used to a different educational system
- Have attended one or more schools (in Scotland or abroad) before the present one
- Have learning difficulties or complex needs
- Come from a range of cultural, religious, national and linguistic backgrounds
- Be living with parents who are experiencing emotional difficulties or withdrawal themselves
- Be experiencing cultural disorientation as well as feelings of loss, grief and isolation

Challenges Facing New Arrivals

- learning English
- transition difficulties
- isolation
- changes in family situations
- little, none or fractured previous education
- different style or emphasis of prior education;
- feeling misunderstood, unvalued or alienated due to cultural differences
- facing racism in or out of school

Initial Strategies to Consider

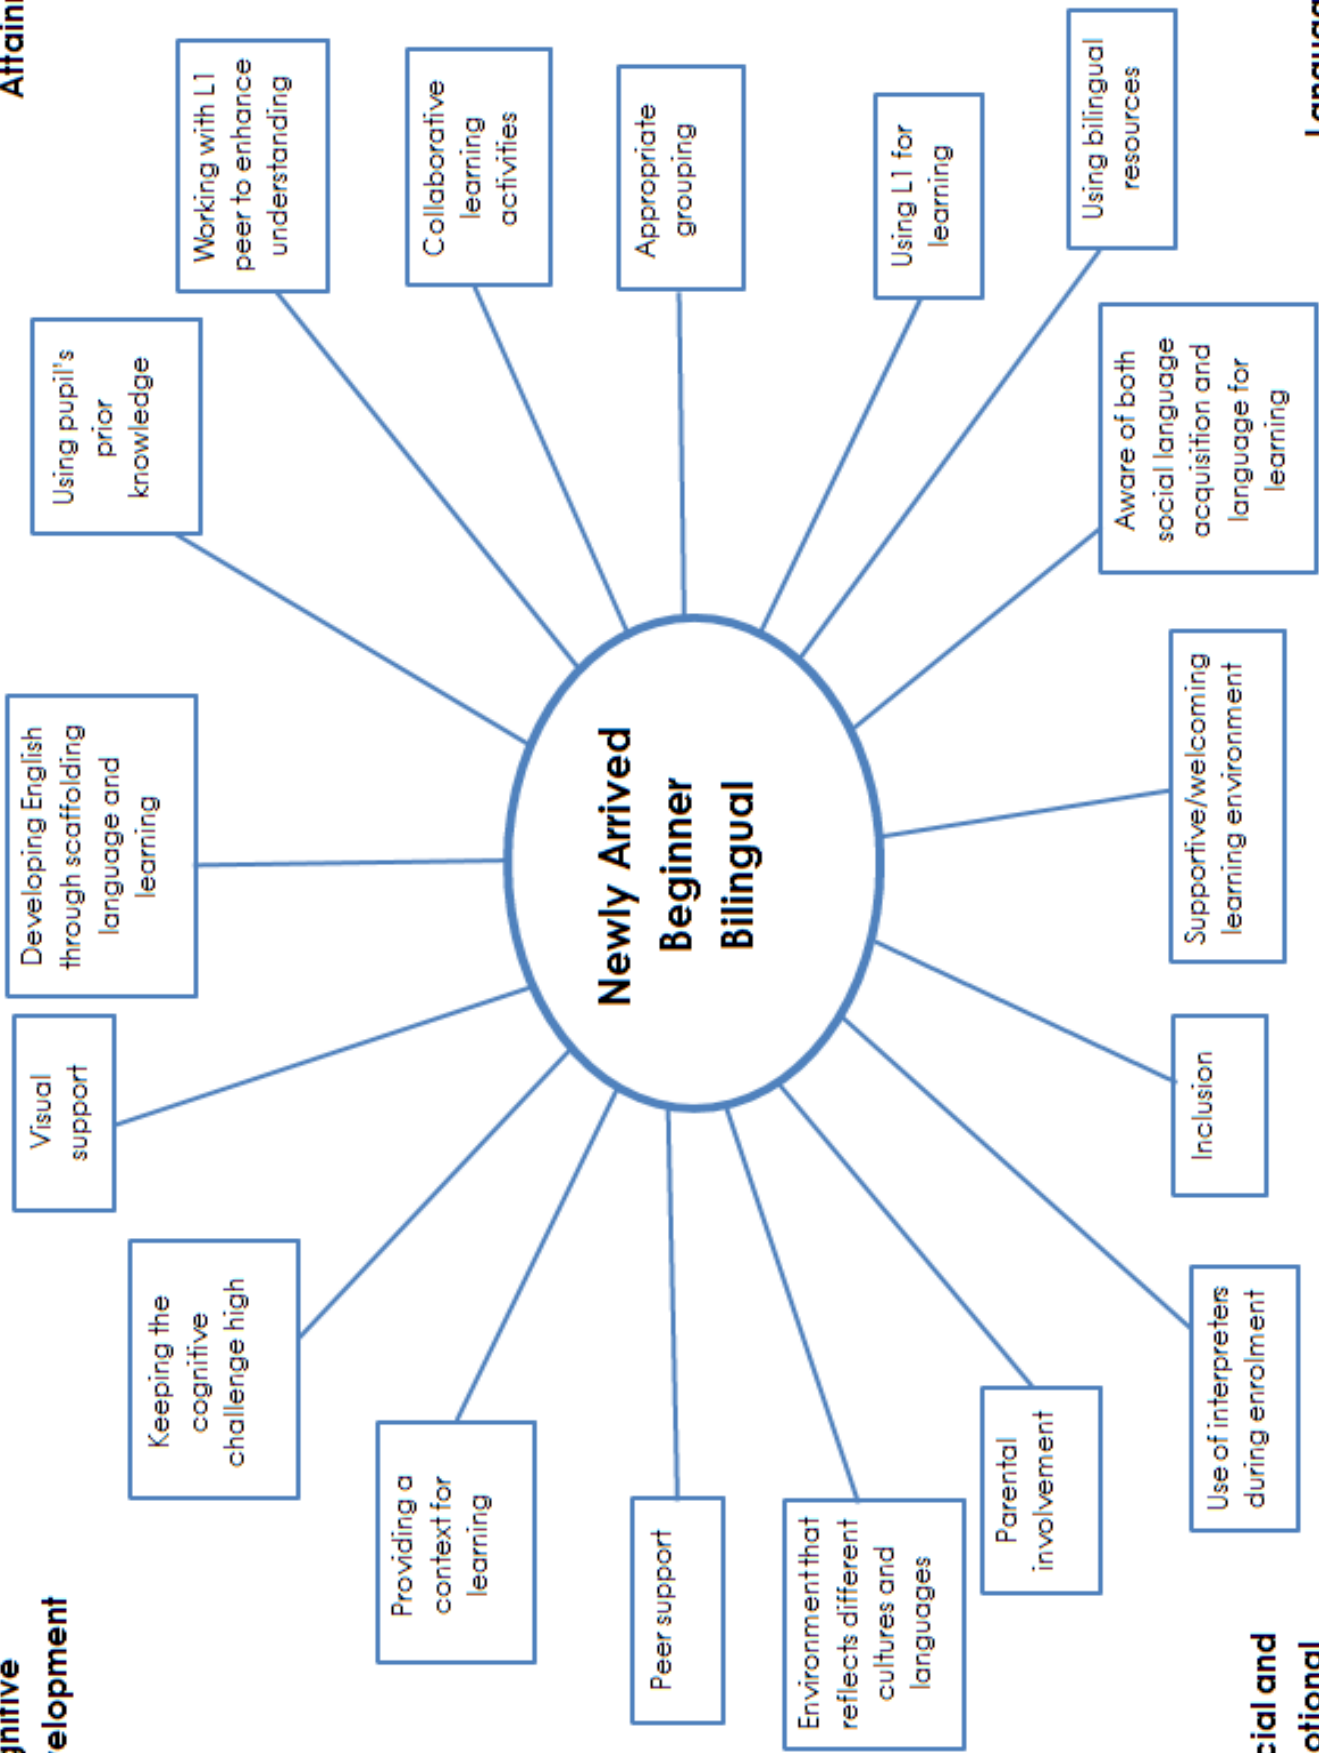

Attainment

Language Development

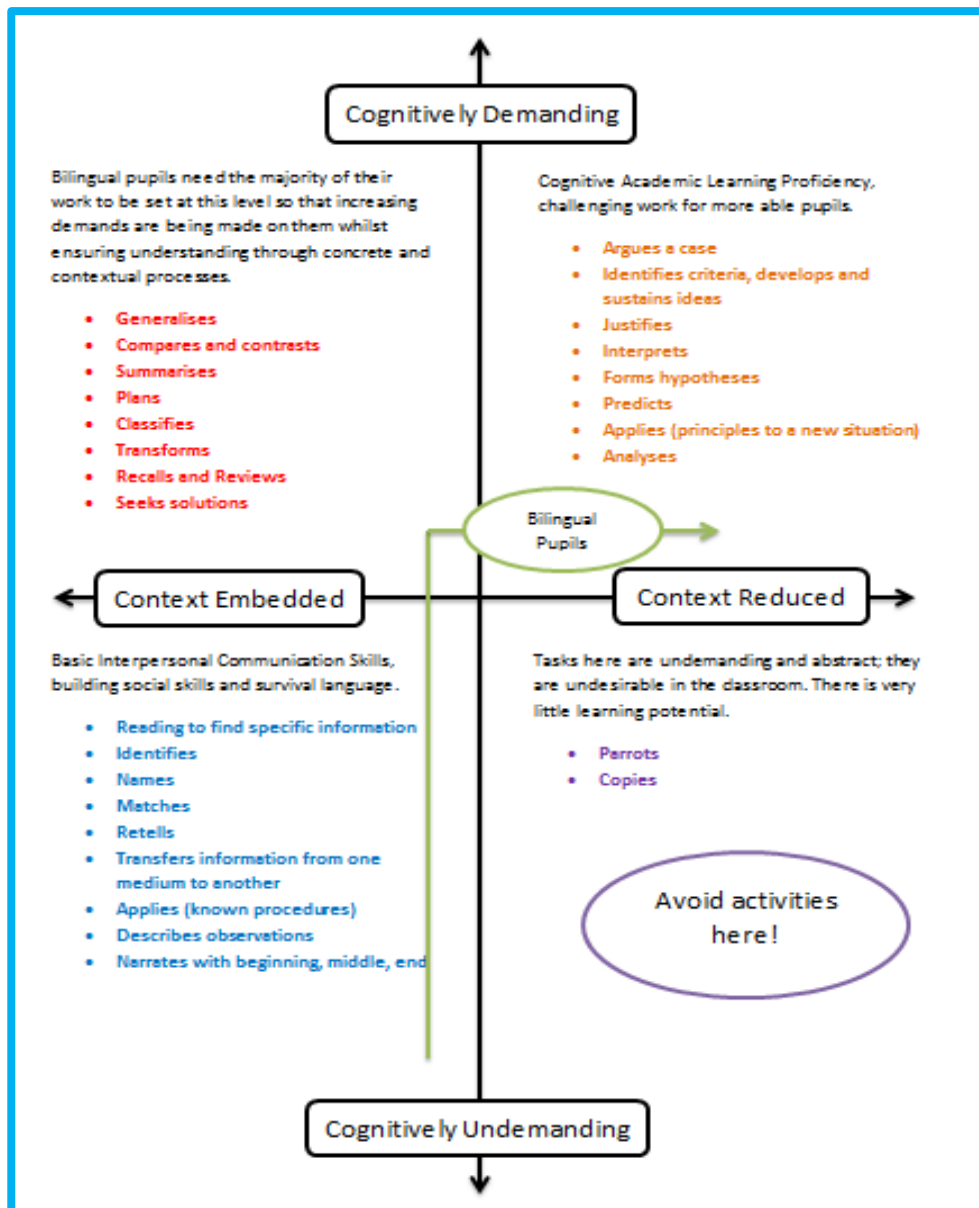

Cognitive Development

Social and Emotional Development

Newly Arrived Beginner Bilingual

Cummins Quadrant

This model is designed for aiding thinking when designing learning for children with English as an additional language (EAL), but as is often the case with good practice designed for minority groups, it is actually good practice for all learners.

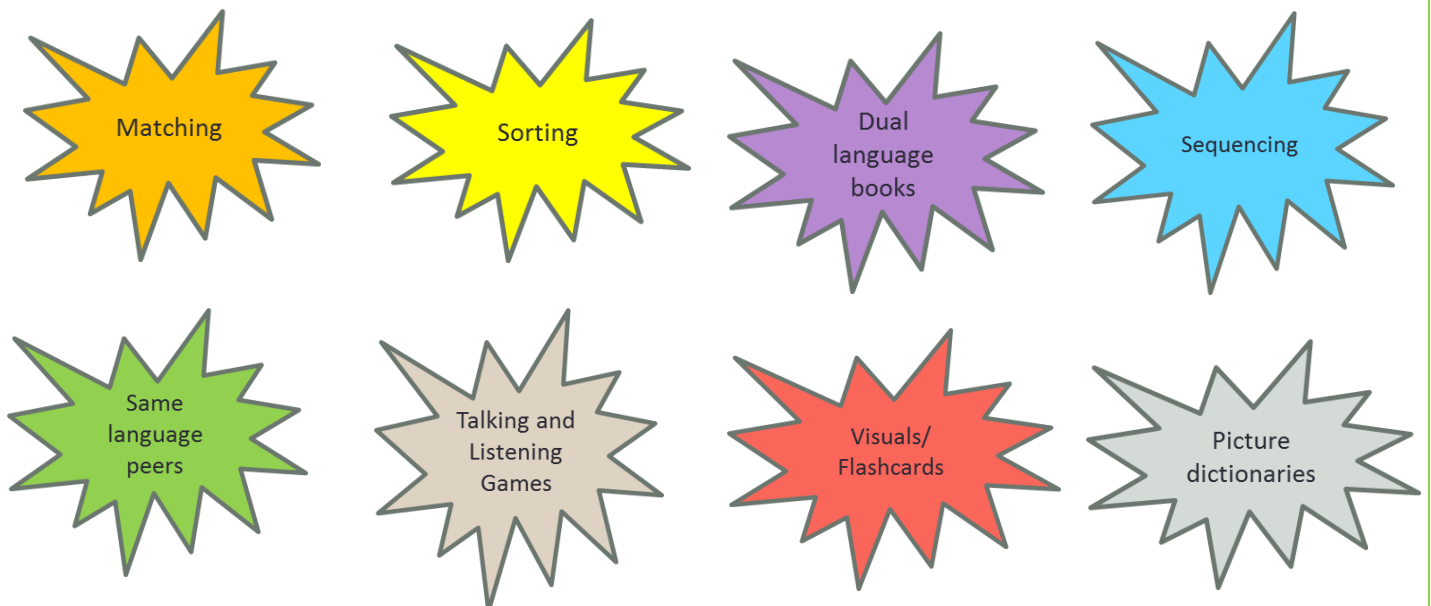

Cummins splits learning into four quadrants of activity. The vertical scale moves from cognitively un-demanding tasks, those which the learners find easy, to cognitively demanding tasks, which they will find hard. The horizontal moves from tasks with a high context, for instance using material or content the learners will find familiar and relate to, to abstract concepts which are much more challenging to relate to real experience, but are often the 'Objectives' that have been defined for them to learn.

Survival Language

When you have a new arrival in your class, it is more effective to focus on the development of basic vocabulary and survival language before moving on to a more comprehensive reading and writing programme. The development of a solid vocabulary base will enable the learner to engage more with the curriculum.

<p><u>All About Me</u></p> 	<p><u>Social Language/Feelings</u></p> 	<p><u>School</u></p> 	<p><u>Colours</u></p>

Building Literacy – Hints and Tips

New to English Building Skills in Talking and Listening

Matching Games: bingo, snap, memory with colours, sounds, shapes, classroom objects, home objects, and family members. Start with visuals and when learners are comfortable add single words.

Sequencing Tasks: known and familiar activities such as going to the toilet, getting dressed in the morning, classroom routines etc.

Communicative Activities: two way, using closed/specific language e.g. barrier games where learner describes a scene or a pattern and partner copies on a separate board.

Follow the Instruction/Leader: listen to directions to move around the room, perform, draw or create an object. Once more familiar with language, different leaders can be chosen to give instructions.

What's Missing: look at a range of objects, partner covers or close eyes and removes 1 – 3 items. Open eyes and try to remember what is missing.

Categorisation: sort objects that logically fit together i.e. farm animals and zoo animals

Sing Rhymes and Songs that Encourage Target Language: head, shoulders knees and toes, nursery rhymes, etc.

Word Association: choose a topic i.e. house, shop, school and think of as many words that link with that topic. Can be timed for fun

Drama/Role Play: acting out familiar stories etc. either in person or using puppets.

Semantic Web: visual of a main topic such as house and draw pictures around this of what is found in a house

Structured Language: using daily repetitive language such as calendar/weather to build familiarity in specific topics

Using Home Language: discussing a certain topic with a same language peer to build understanding then feedback in English

Feely Bag: exploring concrete objects of new vocabulary. Can begin to elicit basic describing words with this

Talking Pans/Talking Tins: will encourage speaking and listening using technology. Use with bilingual talking dictionary to build basic vocabulary in home language then English

New to English Building Skills in Reading

Shared Reading: read to the learner and encourage them to perform actions on repetitive sections. Can be used when they hear certain characters names etc.

Picture Matching: learner is encouraged to match a particular picture to text.

Listening to Bilingual Texts: with peers/parents/using talking pen. Will support first language development as well as inclusivity in the classroom.

Match the Word: learners find given words in the book they are reading.

Sight Word Games: Bingo, memory, do you have? matching 3 or four in a row...

Phonemic Awareness Sort: learners categorise letters/sight words/topic words into the correct alphabetical sound.

Fishing Game: learners fish for specific words with a rod with a magnet on the end and the words on the floor with paper clips attached.

Bilingual Dictionary: use of visuals and then familiar words which can be translated into home language to aid in understanding.

Using Websites to Reinforce Reading Skills: such as 'Incredible English' to add visuals and sounds to texts.

Graphic Novels: to reinforce understanding with the use of visuals in reading. Some graphic novels can be downloaded from library websites.

Visual Sequencing: to aid in retelling stories or specific parts of a story. Useful to convey understanding.

GDSS Resources: phonic blends, syllables and games to aid in building basic reading skills.

New to English Building Skills in Writing

Drawing: learners draw their ideas and orally describe what they have drawn (can be scribed by a teacher)

Sentence jigsaw: having grammatical words, subjects, verbs and object cards for learners to create a text then draw a picture to match.

Writing Frames: learners will be able to plan and structure writing more effectively.

Make Your Own Book: based on a familiar story or topic. Can use photographs/visuals/drawings to enhance understanding.

Sequencing: learners re sequence a sentence to match one they have already been given.

Substitution Table: with visuals to beg in with to aid in visualising sentences and building structure.

Bilingual Dictionary: to record key vocabulary using words and pictures.

Labelling: a specific diagram or picture.

What's Missing? Learners given a visual and a sentence with a word missing, they need find the missing word to match the visual.

Mind Map: learners organise their thoughts and ideas via mind map/spidergram before writing.

Writing in Home Language: to increase confidence when writing and to convey the acceptance of alternative scripts in the classroom.

Technical Skills: letter formation, handwriting, familiarising with English alphabet script.

Talk4Writing: Pie Corbett to allow children to explore writing in an alternative yet effective way

Useful Websites

Information about pupils' countries, cultures, languages

- Language of the Month website
<http://www.newburyparkschool.net/langofmonth/index.html>
Materials for celebrating languages: videos and audio files, display materials and ideas for activities in about 60 languages.
- Information about the differences between English and other languages
<http://esl.fis.edu/grammar/langdiff/index.htm>
New Arrivals Toolkit page on the Wokingham Schools Hub for information about several languages, and also see
- Information about cultures and languages:
<http://wsh.wokingham.gov.uk/resources/assets/inline/full/0/319661.pdf>
A booklet produced by Milton Keynes LA is available on the Inclusion and Celebration page on the Wokingham Schools Hub.
- Information about cultural diversity and global citizenship
<http://www.irespect.net/>
A good website promoting citizenship and tolerance. Would be useful as a class resource to raise awareness of different countries and cultures.
