What	First read:
questions/think alouds will you ask/use when reading aloud to promote	The first time you read The Gruffalo, the children should grasp the basic elements of the story, using CSPAR. Keep the story moving to ensure flow and have short conversations to help children remember and understand the C haracter(s), S etting, P roblem, A ctions and R esolution.
conversation and comprehension, and to extend thinking?	After your first read, you might want to make a <i>think aloud</i> comment around the problem e.g. ' <i>This mouse has a big problem - everyone wants</i> <i>to eat him!</i> ' and wait to see how the children respond as this is not explicitly stated in the story. You could also ask a question like ' <i>Why is the</i> <i>snake really inviting the mouse over for a feast?</i> '
	Your questions and <i>think alouds</i> should focus on extending or reinforcing the children's basic understanding of the plot. E.g.
	 Who (character)? Where (setting)?
	 What (action/big problem/resolution)? Why (explaining understanding)? 'I'm trying to understand why'
	Second read: The second time you read the story, start to have longer conversations and talk more deeply about the story. Strive for 5 turns in conversations. Discuss characters' thoughts and feelings, refer to illustrations. Encourage the children to use reasoning skills by making <i>think aloud</i> comments and asking questions that build understanding.
	To explore the characters' motivations or A ctions in The Gruffalo you could use the following <i>think alouds</i> .
	<i>'I'm thinking that the mouse doesn't believe there is such a thing as a Gruffalo.'</i> <i>'I'm wondering if the fox really wants to have the mouse over for lunch.'</i> <i>'I'm trying to figure out why the Gruffalo is scared of the mouse.'</i>

	How the children respond to these comments will give you an idea of how much they understand. You can elaborate on these comments and use the pictures and text to support the children's understanding. For example, if you say, 'I'm wondering if the fox really wants to have the mouse over for lunch' and the children don't respond, you could then provide further information by pointing to the picture of the fox and saying, 'Look at his face, at his eyes and mouth - he looks pretty suspicious to me. I think he's trying to trick the mouse so he can eat him for lunch'. Modelling this approach will demonstrate different ways that children can think about what's happening in the book and begin to unpick meaning beyond the written words of a story.
	Subsequent reads: You may want to read this story several more times to help build the children's understanding of the mouse's actions. This could have a particular focus on the Resolution- what happens at the end, how did mouse solve his big Problem that everyone in the forest wanted to eat him? Keep asking why questions and encourage children to explore characters' thoughts and feelings , imagine and project. <i>'What would you say if? Why?'</i> <i>'What do you think about? Why?'</i> Remember to Strive for Five.
Plenary Review and Recall	
How will you help	i.e., the three sharings
children to	
connect further	- sharing enthusiasms – 'what is your favourite part of the story/character
with the story?	and why?' - sharing puzzles – 'Why is the mouse so surprised when the Gruffalo appears?', 'How do you know the mouse is lying to the other animals?' or 'How do you know the mouse's plan is working?' - sharing connections – children share a time that they have tricked someone, or someone had tricked them.
