

You will need your red die for this. Your red die has groups of ten on it. Roll the die and look for the square with the same number. If you roll 10, look at the box with 10 in it. There are three numbers. Add on 10 to every number and write the new number. If you roll 70, look at the box with 70 in it. There are three numbers. Add on 70 to every number and write the new number etc.
