BSL Signs to go along with the story

How do I scan a QR code with my phone or tablet?

To scan a QR code, you need a smartphone with a camera and, in some cases, a mobile app.

How to Scan a QR Code with a smart phone or mobile app camera

- Launch your camera.
- Point it at the QR code.
- A notification will appear
- Click on this to direct you to the link

If you smart phone does not have a built in camera, you may need to download a QR code reader. There are free apps available.
