

WOW! Animals

Length

Use the measuring tape - Can you find objects which are equal in length to the bee hummingbird?

Can you collect various items and compare their lengths?

Which one is the longest?
Which one is the shortest?

How many numbers can you find in the book? Can you order the numbers from smallest to largest?

What is the largest number?

What is the smallest number?

Can you create addition calculations and work out the answers?

For example - how far a grasshopper can jump, add the number of different types of goats.
 $20 + 300 = 320$

Can you find what one ostrich egg is equal to?

What does one blue whale weigh and what is it equal to?

Collect items from around your house. Hold one item in each hand. Discuss which items you think are heavier and lighter.

Can you categorise the animals in the book into those which live on land, in water or both?
