

SHARING STORIES

Family Learning in Your Nursery

Join us for a 4-week programme designed to support your child's development through the joy of sharing stories. These interactive one hour sessions will give you simple ways to support your child's learning at home.

What to expect

- Learn how sharing stories supports early brain development
- Build skills to support learning at home
- Take-home resources and activities to keep
- Free books to grow your child's library

How does it work?

Guided learning with your nursery staff

Spend part of the sessions learning about the science behind early brain development and discover simple, practical ways to support your child's learning through sharing stories.

Activities with your child

Enjoy hands-on time with your child engaging in activities that put into practice what you have learned.

Sessions will run weekly in your local nursery.
Speak with nursery staff to find out more and sign up!
