

## **Hillhead High School: SLT discussion**

*Respect   Resilience   Ambition   Integrity   Kindness*

### **Clarity of vision**

When working on your group presentation remember that there are a variety of things you can include in your work. The ultimate goal to support the person viewing your presentation, to provide a strong positive message as we start our new normal and create new opportunities for ourselves to grow and improve.

Key areas to think about including in your presentation:

Positivity.

Make the tone welcoming and nurturing.

Health and safety: hand washing and social distancing.

Be aware of how people may be feeling.

The idea that we all have a responsibility to make the new normal work.

Arriving on time, movement around the building.

Developing new opportunities from our new normal.
